

Cabinetmaker Style Wall Files

Combine the convenience of a wall file—with the attractive look of a cabinet.

- Give offices and exam rooms a neater, more organized appearance than afforded by conventional wall files.
- Built-in accessory ledge keeps writing instruments conveniently at hand.
- Crafted from premium grade hardwoods from the slow-growth forests of the Upper Midwest—a region renowned for its distinctive colors, exquisite patterns and highly wearable grain densities.
- Enhanced by our traditional hand-rubbed finish—in Natural Oak, Genuine Walnut, or Mahogany-stained walnut. Custom veneers and finishes also available.
