

Bamboo Chair Mats

Tough, Solid Bamboo Hardwood Chair Mats

Smooth rolling comfort melded with beauty and style create an unbelievably comfortable and relaxing working environment! A far superior alternative to the common, utilitarian vinyl chair mat.

Manufactured from the highest quality solid bamboo, these mats are configured with full size felt backings to protect any surface they are placed on. While the felt protects the floor, soft rubber bumps provide a non-slip surface to keep the mat in place without damaging spikes or tape found in less expensive vinyl products.

Will not damage underlying floor finishes.

Every beautiful bamboo mat is designed and made:

- * with the strongest flooring-grade bamboo available;
- * with laminated bamboo slat construction for extraordinary durability;
- * with bamboo planks that are approximately 2" wide;
- * from ecologically friendly wood harvested from sustainable, protected forests;
- * with a coating of 7 layers of premium UV finish;
- * with premium Non-slip backings to cushion and protect your floor;
- * to be easily rolled up (similar to a rug) for easy movement and portability;
- * needs NO ASSEMBLY !

Vertical construction of roll-up chair mats

Style		Overall	Lip Size	Natural Bamboo		Dark Cherry on Bamboo	
Small	Rectangular	36"x42"		AMR16		AMR17	
	Traditional	36"x48"	20"x9-1/2"		SMT16		AMT17
Medium	Rectangular	42"x47"		AMR26		AMR27	
	Traditional	44"x52"	20"x9-1/2"		SMT26		AMT27
Large	Rectangular	46"x47"		AMR36		AMR37	
	Traditional	55"x57"	20"x9-1/2"		SMT56		AMT57
Extra Large	Rectangular	48"x55"		AMR66		AMR67	
Ultra Large	Rectangular	47" Dia		AMR76		AMR77	
Large	-	-					

Taken from the harder part of the bamboo trunk to assure maximum endurance and longevity, the select bamboo material is kiln dried, carbonized and laminated together under pressure. This creates what is considered to be the strongest flooring-grade bamboo anywhere.

100% Felt and Soft Rubber backing - NO Spikes !
