

## Introducing The Cherry Ridge Collection

Solid Cherry Premium Office Accessories From [SuccessImage.com](http://SuccessImage.com)

The Cherry Ridge Collection demonstrates flawless integrity in its appearance—as well as in its performance.

Celebrated the world over for their distinctive colors, exquisite patterns and highly wearable grain densities, our premium cherry hardwoods are harvested

from the slow-growth forests of the Upper Midwest.

Each exquisite piece is embellished with the collection's exclusive insignia—die-struck from fine jeweler's brass and plated in 24 carat gold.

Of course, each item in the collection is enhanced by the richness of Carver's traditional hand-rubbed finish—in

Natural or Seasoned Cherry—as well as the crisp mitered corners and routed ridge detail that distinguish Carver's craftwork from other work space accessories.

Desk Trays in letter, legal and extra deep dimensions are available in single, double and combination letter/legal configurations.

Desk Pads offer a writing surface with the perfect amount of "give" for smooth and comfortable writing—trimmed with the same solid cherry hardwoods that give this collection its distinctive character.

Our very popular Tambour Waste Baskets recall the most note-

worthy feature of the classic rolltop desk, and include a 24-quart steel liner finished in black enamel.

Solid cherry Book Racks keep up to 16 inches of books ready for your reference, and can also function as a reading stand for larger reference books.

Make an authentic statement of quality. Where elegant accessories for the work space are concerned, nothing else offers the aesthetic and structural performance of The Cherry Ridge Collection.
